ASSURANCE GIVEN TO BUSINESS MEN

Attorney General Outlines Policy in Enforcing the Anti-Trust Laws.

Reassurances to the business men of the country regarding the policy of the Department of Justice in enforcing the Sherman anti-trust laws are believed here to be conveyed in a statement of Attorney General Gregory, published today, in which he outlines this policy.

The statement, issued through the Chamber of Commerce of the United States, was in response to a suggestion that an expression from the Attorney General as to the government's attitude in future anti-trust prosecutions "might be regarded as reassuring to the public mind" and might "dispel some of the uncertainty which heretofore existed."

Information recently was received by the bank that \$20,000 in gold and \$25,000 in bills had been cached near this city. The source of the information, according to the bank's officials, is such that they are confident the lost money will be recovered at the place indicated.

Several arrests were made as a result of the robbery, including that of James McNamara, who is now serving a life term in the Federal Reformatory for Women at Alderson, West Virginia, for a crime in which the robbers escaped.

The dead are John Walsh, N. Y. Richard J. Larney, Philadelphia, and T. Clyde Wynn, address not known. The superintendent of the plant said the victims were employees, but that they had no business in that part of the works where the explosion occurred. The blast was a terrific one and was felt twenty-five miles away.

Wire communication with the plant was cut off by the shock, but the result was that the wildest rumors prevailed until daylight cleared up the extent of the accident. The property loss is small, as the explosion occurred in a small building of No. 1 plant of the works. It was some distance from the main buildings.

One of the reports in circulation was that government agents and secret service men from the du Pont police force had been watching suspicious persons who went to the plant from Wilmington, Del., by boat, and that they were carrying bombs and fuses had been arrested.

B. Landis, a representative of the company, branded all these reports as false. "Nothing ever occurs at the du Pont works," he said, "but that some one loads one or two men up with bombs and dynamite and puts them under arrest," said Mr. Landis. "There is nothing to the plot theory."

THE HAGUE, January 9, via London, January 10.—Assurances received today from Switzerland are that Switzerland is sending five civilians to join those of the other neutral nations in the permanent peace board which it is planned to form as a result of the Ford peace expedition. The Swiss delegates will arrive in The Hague as soon as an interruption to traffic, due to the war, will permit.

An effort is on foot to have representatives from Spain join the peace board. Invitations sent to the leading Spanish pacifists, however, have not yet been answered on account of the interruption to communications.

Bryan to Be a Member. With the Americans leading, the movement already has been joined by delegates from Norway, Sweden, Denmark and Holland, and the addition of this week purposes to establish a permanent board with five members from each neutral nation. It has virtually been decided that the Americans will include William J. Bryan, Jane Addams and Henry Ford.

The purposes of the board are, first, to obtain expert advice on how to proceed; second, to take the initiative in approaching the warring nations with peace terms, and, third, to be prepared to sit indefinitely, and receive and pass upon peace proposals, from whatever source they may be offered.

Meetings This Week. This week the expedition will hold meetings at The Hague, Amsterdam and Rotterdam.

Mme. Rosika Schwimmer, the Hungarian delegate, who was largely responsible for organizing the expedition, said today:

"Information has reached me from influential sources that the establishment of an unofficial arbitration body will not be unworkable. This opinion is renewed encouragement that peace is less remote than is generally believed."

Daniel C. Roper to Speak. Daniel C. Roper, assistant postmaster general, is scheduled to speak tomorrow to the Tuesday morning gathering at the Washington Club on "Some Phases of Our Postal Service." Arthur Stanley Riggs was the speaker at the meeting last week, and his subject was "The American Spirit at the San Francisco Exposition." "American Historical Costumes" will be the topic of a lecture by Mrs. Rose Gouverneur Hoes at the meeting next week.

President and Wife at Church. President Wilson and Mrs. Wilson attended morning services at Central Presbyterian Church yesterday, and were the center of interest before and after the service. Prior to his departure from the church President Wilson exchanged words with the pastor, Rev. James H. Taylor.

Florida Society to Elect Officers. At a meeting of the Florida Society, called for tomorrow night at the Logan apartment, officers for the ensuing year are to be elected and installed. Senator Fletcher of Florida is the present presiding officer.

LOOKING FOR WORK. Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work itself so much as their own lack of physical strength that makes it hard.

Building strong muscles and healthy digestion make work pleasurable in business, in school or even housework, and if those who are easily tired—who are not just, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's.

Scott & Bowne, Bloomfield, N.J. 15-35.

Anthracite Briquets are made from pure anthracite coal molded into shape under heavy pressure the exact size of illustration. They are odorless, do not break away when burning and every particle is consumed, producing a beautiful, clean, hot fire.

The superiority of Anthracite Briquets over ordinary coal, together with the considerable saving in price, should appeal to you.

DIGGING TO FIND \$45,000 STOLEN FROM BANK IN 1911

Workmen Are Employed to Hunt for Cache Near New Westminster, B. C.

VANCOUVER, B. C., January 10.—Workmen employed by the Bank of Montreal continued today the digging begun yesterday in an effort to unearth \$45,000 of the \$271,000 stolen from the bank's branch in New Westminster in 1911.

Information recently was received by the bank that \$20,000 in gold and \$25,000 in bills had been cached near this city. The source of the information, according to the bank's officials, is such that they are confident the lost money will be recovered at the place indicated.

Several arrests were made as a result of the robbery, including that of James McNamara, who is now serving a life term in the Federal Reformatory for Women at Alderson, West Virginia, for a crime in which the robbers escaped.

EXPLOSION KILLS THREE WORKMEN

Many Others Injured, at the du Pont Powder Plant, Carneys Point, N. J.

PHILADELPHIA, January 10.—Three men were killed and a number injured in an explosion of smokeless powder early today at the plant of the du Pont powder works at Carneys Point, N. J. It has been reported that a large number of men had lost their lives, but after an investigation the superintendent of the plant said that only three were dead.

The cause of the explosion is not known, but according to the superintendent there is no suspicion that the blast was due to outside agencies. The report that arrests had been made was denied.

The dead are John Walsh, N. Y. Richard J. Larney, Philadelphia, and T. Clyde Wynn, address not known. The superintendent of the plant said the victims were employees, but that they had no business in that part of the works where the explosion occurred. The blast was a terrific one and was felt twenty-five miles away.

Wire communication with the plant was cut off by the shock, but the result was that the wildest rumors prevailed until daylight cleared up the extent of the accident.
